ČESKOSLOVENSKÁ AKADEMIE VĚD

Studia geophysica et geodaetica

ROČNÍK 14 • 1970

ACADEMIA

STUDIA GEOPHYSICA ET GEODAETICA

1970

TOM 14 VOLUME

Журнал по геофизике, метеорологии и климатологии, геодезии

A journal of geophysics, meteorology and climatology, geodesy

*

Главный редактор — Chief Editor

STANISLAV BRANDEJS

*

Зам. редактора — Executive Editor

JAN PÍCHA

*

Редакционная коллегия — Editorial Board

EMIL BUCHAR, MILAN BURŠA, JOSEF JÍLEK, JAN KAŠPAR, TIBOR KOLBENHEYER, MIKULÁŠ KONČEK, KAREL KUČERA, VÁCLAV PETR, ŠTEFAN PETROVIČ, KAREL PĚČ, JOSEF PODZIMEK, OLDŘICH PRAUS, JIŘÍ VANĚK, ALOIS ZÁTOPEK

*

Адрес редакции — Editorial Office

Geofysikální ústav ČSAV, Boční II, Praha 4 - Spořilov

*

Администрация — Administration and Circulation

ARTIA, 30, Ve Smečkách, Praha 1 - Nové Město, Czechoslovakia

*

СОДЕРЖАНИЕ – CONTENTS

1

Burša M.: Best-fitting Tri-axial Earth Ellipsoid Parameters Derived from Satellite Observations 1
Burša M.: Geopotential and Gravity on External Surfaces as Derived from Satellite Observations 10
Charamza F.: Programme for Solving Larger Systems of Linear Algebraic Equations by Means of a Small Computer 25
Novotný O.: Partial Derivatives of Dispersion Curves of Love Waves in a Layered Medium 36
Cupal I.: Flow in the Earth's Core and the Hydromagnetic Dynamo 51
Prikner K.: Propagation of Low-frequency MHD Waves through the Earth's Magnetic Tail 67
Horák J.: Random Model of Turbulent Diffusion and Latent Parameters of the Process 83

КРАТКИЕ СООБЩЕНИЯ – SHORTER CONTRIBUTIONS

Ecker E.: Upward Continuation of the Deflections of the Vertical by Spherical Integral Formulas 93

2

Symposium on Physical Geodesy, Prague, September 22–28, 1969 97–272

3

Burša M.: Global Geoid Sections Determined by Satellite Dynamics 274
Janský J.: Refracted Wave in a Horizontally Layered Medium with Continuous Velocity Gradients 286
Babuška V.: Elastic Anisotropy of the Upper Mantle and the Mohorovičić Discontinuity .. 296
Anděl J.: Negative Analysis of the Stability Index 310
Tauer J.: Relations between the Sporadic *E* - Layer and Geomagnetic Disturbances in the Northern Auroral and Polar Regions 325

КРАТКИЕ СООБЩЕНИЯ – SHORTER CONTRIBUTIONS

Kabeláč J.: On a New Condition for Directions of a Spatial Network 336
Prikner K.: Some Mechanical Analogies of Magnetodynamic Oscillations in a Homogeneous Medium 339
Střeštík J.: Determination of the Original Shape of Pulsations from Their Spectra 344

ХРОНИКА – NEWS

Editorial Board: Czechoslovak State Prize Awarded for Geophysics 349
Die Redaktion: Mitglied-Korrespondent Mikuláš Konček – siebzig Jahre alt 349

Die Redaktion: Ing. Dr. Karel Kučera — 65 Jahre alt 350
Die Redaktion: Dr. Rostislav Rajchl — 60 Jahre alt 351

КРИТИКА — REVIEWS

Editorial Board: Contributions of the Geophysical Institute of the Slovak Academy of Sciences 352

4

Moritz H.: A Generalized Least-Squares Model 353
Burša M.: The Differences in Structure of the Gravity Field and the Figure of the Earth in the Northern and Southern Hemispheres 363
Bhattacharji J. C.: A Rapid Astronomical Method of Observation for Geodetic Azimuth and Prime Vertical Deflection of the Vertical 376
Kučera K.: Abschätzung der Geometrischen- und Genauigkeitsparameter eines Dreiecknetzes 382
Janský J.: Amplitude of Reflected Wave in a Horizontally Stratified Medium 389
Siráň G.: Magnetic Torque Acting on the Mantle in a Non-Stationary Geomagnetic Field .. 395
Jiříček F.: On the Determination of Propagation Paths of Mid-Latitude Whistlers for Purposes of Estimating the Magnetospheric Electron Density 402
Hesek F.: Dependence of the Concentration of a Passive Substance on the Duration of the Measurements 414

АВТОРСКИЙ УКАЗАТЕЛЬ — AUTHORS INDEX

Anděl J.: Negative Analysis of the Stability Index 310
Babuška V.: Elastic Anisotropy of the Upper Mantle and the Mohorovičić Discontinuity .. 296
Bhattacharji J. C.: Modified Earth Model Free-Air Gravity Anomaly for Use in Vening Meinesz's Formula 271
Bhattacharji J. C.: A Rapid Astronomical Method of Observation for Geodetic Azimuth and Prime Vertical Deflection of the Vertical 376
Bjerhammar A.: Isometric Anomaly 272
Bragard L.: On a Regional Method of Determining the Figure of the Earth by Succesive Parts by Means of the External Gravity Field 114
Brovar V. V.: Determining the Gravity Potential by Means of a Force Component in a Constant Direction 242
Brovar V. V., Pham-hoāng Lân: Computation of Averaged Gravity Field Characteristics 250
Burša M.: Best-fitting Tri-axial Earth Ellipsoid Parameters Derived from Satellite Observations 1
Burša M.: Geopotential and Gravity on External Surfaces as Derived from Satellite Observations 10
Burša M.: On the Correlation between Deflections of the Vertical and Axes of Zones of Increased Macroseismic Mobility 183

Burša M.: Geopotential, Geoidal Surface and Earth's Figure Parameters as Determined from Satellite and Terrestrial Data 203
Burša M.: Global Geoid Sections Determined by Satellite Dynamics 274
Burša M.: The Differences in Structure of the Gravity Field and the Figure of the Earth in the Northern and Southern Hemispheres 363
Cupal I.: Flow in the Earth's Core and the Hydromagnetic Dynamo 51
Die Redaktion: Mitglied — Korrespondent Mikuláš Konček — siebzig Jahre alt 349
Die Redaktion: Ing. Dr. Karel Kučera — 65 Jahre alt 350
